

# SOLINFTEC

## iOS DEVELOPER

Full-time job position • Remote

We are looking for an innovative and upbeat iOS Developer to join our team. In this role you will be working with our growing Development Team to collaborate and further innovate our applications.

### About Solinftec

Solinftec is an innovative digital agriculture company rapidly expanding its operations in the United States with 22 million acres, 300,000 machines connected and 100,000 daily users. Solinftec was recently named “Most Innovative International Startup - Series A” by AgFunder. As a leader in IoT and A.I. for agriculture, Solinftec has deployed several systems for the sugar, ethanol, corn, soybean, cotton and citrus industries. The company develops hardware, software, mobile applications, integration with ERP legacy systems and telecom carriers, and creates value-added solutions for digital agriculture. Solinftec was founded in 2007 in Aracatuba, São Paulo, Brazil. The company recently expanded into North America and has since established its North American headquarters in West Lafayette, Indiana. As part of Solinftec’s growth strategy, international plans include significant expansion in the United States and a presence in Latin America and Australia.

### What You’ll Be Doing

- Designing and building mobile applications for Apple’s iOS platform.
- Collaborating with the design team to define app features.
- Ensuring quality and performance of the application to specifications.
- Identifying potential problems and resolving application bottlenecks.
- Fixing application bugs before the final release.
- Publishing application on App Store.
- Maintaining the code and atomization of the application.
- Designing and implementing application updates.

### Qualifications We Are Looking For

- Bachelor’s degree in computer science or software engineering or equivalent experience.
- Proven experience as an app developer.
- Proficient in Swift and Cocoa Touch.
- Extensive experience with iOS Frameworks such as Core Data.
- Knowledge of iOS back-end services.
- Knowledge of Apple’s design principles and application interface guidelines.
- Proficient in code versioning tools including Mercurial or Git

### Preferred qualifications

- Experience with Kotlin Multiplatform preferred.
- Experience with SwiftUI and Combine Framework.
- Knowledge of web technologies, mobile technologies, databases, and/or machine learning.
- Familiarity with push notifications, APIs, and cloud messaging
- Experience with continuous integration.
- Fluency in Spanish or Portuguese.

### What We Offer

- Upbeat, customer innovation-centric culture
- Competitive salary
- 401k with matching contribution
- Healthcare, dental, and vision coverage
